PROFESSIONAL SUMMARY

I'm a Software Engineer with over 2 years of experience who enjoys building applications that make systems faster, smarter, and easier to use. I've worked across full-stack development and database management, cutting onboarding times, fixing high-impact bugs under pressure, and implementing scalable architectures built to last. I enjoy mentoring teammates and finding ways to connect technical solutions with real business needs. I'm currently pursuing a Master's in Computer Information Systems at Boston University to further develop my expertise in IT project and product management.

EDUCATION

Boston University   Boston, MA
Ms in Computer Information Systems (IT Project & Product Management - Part Time)   *September 2025 - March 2027*

Instituto Tecnológico de Santo Domingo (INTEC)   Santo Domingo, Dominican Republic
Bachelor of Science: Software Engineering   *August 2020 - August 2024*

WORK EXPERIENCE

Plaza Lama   Santo Domingo, Dominican Republic
Technical Consultant and Mentor (Remote)   *April 2025 - June 2025*
- Mentored new developers through structured training sessions and one-on-one coaching, leading to a 30% increase in their coding efficiency and reducing onboarding time by half.
- **Technologies:** Node.js, TypeScript, NestJs, React, MySQL, Linux

Plaza Lama   Santo Domingo, Dominican Republic
Full Stack Developer (Hybrid)   *September 2023 - March 2025*
- Served as the sole developer after 2024, independently managing the full development lifecycle..
- Implemented a scalable microservice architecture and monorepo setup.
- Upgraded the admin dashboard from Angular to React, increasing performance by over 200%.
- Established CI/CD pipelines to automate testing, integration, and deployment, reducing manual errors and accelerating release cycles.
- **Technologies:** Node.js, TypeScript, NestJs, React, Angular, MySQL, Linux, GitLab CI/CD, Jira

Plaza Lama   Santo Domingo, Dominican Republic
Full Stack Developer Intern (On-site)   *July 2023 - September 2023*
- Developed and deployed a comprehensive intranet module, enhancing internal communication efficiency by 40%across 10k+ employees and streamlining project collaboration.
- **Technologies:** Node.js, TypeScript, NestJs, MySQL, MongoDB, Linux
